SHEER STYLE

Hanging strings of white capiz shells envelop this table for four, setting the tone for a relaxed yet elegant California-style wedding. Kathy Wright & Co. used natural shells and organic elements of wood and glass to add to the feel. Set in the resort's Villas 1 pool area, the table's centerpiece uses de-petaled sunflower heads sitting beneath a tall, clear glass vase filled with white phalaenopsis orchid spikes. Place settings are created from bubbled glass set atop dark wood charger plates. Crowning the settings are Lucite cubes topped with white mother-of-pearl nautilus shells filled with white cymbidium orchids, while mother-of-pearl flatware and amber martini glasses flank the settings. A low-lying table in a separate reception area is topped with an elegant mix of amber votives and decorative green glass baubles.
