

## CHARLES FRIES ROOM

"By the Sea" by Victoria Schroeder was created to incorporate the colors of the sea in a clean, modern design without being too exaggerated in theme. The effect was achieved by using Russian linen in aqua with a white linen hemstitch overlay and creating a runner of blue sea glass set between three groupings of a trio of 40-inch tall cylinder vases with submerged white cymbidium orchids and floating candles set in a wrought iron box. Personalized menus surrounded by blue sea glass visible under clear charger plates echoed the table "runner," and linen napkins in two colors tied with natural raffia and embellished with a white orchid finished the place setting. Each place setting also included a special Godiva favor of a miniature wedding cake in chocolate, designed by Sylvia Weinstock, tucked inside a shimmer crème box.
